Objective:

Enthusiastic and dedicated Computer Science student specializing in frontend development, with a solid foundation in HTML, CSS, and JavaScript. Proficient in creating engaging and responsive user interfaces. Actively seeking internship or employment opportunities to contribute my frontend development skills, problem-solving abilities, and passion for creating seamless user experiences to dynamic projects.

Education:

- Bachelor of Technology in Computer Science
  Vellore Institute of Technology, 2026(Current Cgpa:**8.69**)
- High School
  Shrishti Matric HR. Sec. School,2022

Skills:

- **Programming Languages:** HTML, CSS, JavaScript, C++, Java, Python

- **Frontend Frameworks:** React.js (Basic)

- **Version Control:** Git

- **Responsive Web Design**

- **Problem-Solving and Debugging**

- **Communication and Team Collaboration**

Projects:

1. Mapty Website
- Designed and developed a responsive user friendly workout tracker website showcasing location and workout type.
- Implemented animations and transitions using CSS for an engaging user experience.
- Technologies Used: HTML, CSS, JavaScript
- GITHUB LINK

2. Bankist Website

- Created a dynamic Bank management website which allows to create a bank account and do all the bank related things.
- Implemented user input validation and utilized local storage to persist data across sessions.

- Technologies Used: HTML, CSS, JavaScript
- GITHUB LINK

3. Weather App:

- Developed a dynamic web-based weather application using HTML, CSS, and JavaScript.

- Integrated OpenWeatherMap API for real-time weather data.

- Implemented dynamic background changes based on current weather conditions.

- Designed a user-friendly interface with search functionality and weather icons.

- Demonstrated effective problem-solving through error handling.

- GITHUB LINK

Extracurricular Activities:

- Engaged in continuous self-improvement through reading books on technology, programming, and design principles.

- Participated in coding competitions and hackathons to enhance problem-solving skills and collaborate with peers.

- Attended workshops on frontend development and UI/UX design.

Languages:

- Proficient in English, both written and spoken.
- Fluent in Tamil.
